

NEW TARIFF BILL
UP FOR DEBATE.

HOAR RIDDLES THE DEMOCRATIC PATCHWORK.

Result of the Compromise Shown—Some of the Most Important Changes are Made By the Democratic Senators—Anti-Option Measure Ready—Mr. Bland Needs Aid.

WASHINGTON, May 8.—Senator Hoar addressed the senate today, making a scathing speech in opposition to the tariff bill. The most important changes made in the bill by the amendments introduced in the senate as the result of the democratic compromise are as follows. The new sugar schedule provides:

"On and after Jan. 1, 1895, there shall be levied, collected and paid on all sugars not above No. 16 Dutch standard in color and on all tank bottoms, syrups of cane juice or of beet juice, melada, concentrated melada, concrete and concentrated molasses a duty of 40 per centum ad valorem, and upon all sugars above No. 16 Dutch standard in color there shall be levied, collected and paid a duty of one-eighth of 1 cent per pound in addition to said duty of 40 per centum ad valorem; and all sugars, tank bottoms, syrups of cane juice or of beet juice, melada, concentrated melada, concrete or concentrated molasses which are imported from or are the product of any country which at the time the same are exported therefrom pay, directly or indirectly, a bounty on the export thereof, shall pay a duty of one-tenth of 1 cent per pound in addition to the foregoing rates. Provided that nothing herein contained shall be so construed as to abrogate or in any manner impair or affect the provisions of the treaty of commercial reciprocity concluded between the United States and the king of the Hawaiian islands on Jan. 20, 1875, or the provisions of any act of congress heretofore passed for the execution of the same; that on and after Jan. 1, 1895, there shall be levied, collected and paid on molasses testing 40 degrees or less by the polariscope and containing more than 20 per centum of moisture, and on molasses testing above 40 degrees and not above 56 degrees polariscope, a duty of 2 cents per gallon; if testing above 56 degrees polariscope a duty of 4 cents per gallon."

Butter and substitutes therefor are taxed 4 cents per pound, which is the house rate; senate bill 20 per cent; cheese, 4 cents per pound, senate and house bills, 25 per cent; milk, fresh, 3 cents per gallon; senate and house bills free; broom corn, \$6 per ton; senate and house bills free; cabbages, 2 cents each senate and house bills free; eggs, 3 cents per dozen; senate and house bills free; \$2 per ton (house rate), senate 20 per cent; honey, 10 cents per gallon (house rate), senate bill, 20 per cent; hops, 8 cents per pound (house rate), senate bill, 20 per cent; onions, 20 cents per bushel (house rate), senate bill, 20 per cent.

In the free list, after the words "petroleum, crude or refined," is inserted the following:

"Provided, that if petroleum, crude or refined, is imported from any country which imposes a duty on the same exported from the United States, then there shall be levied, paid and collected upon such petroleum, crude or refined, the rate of duty existing prior to the passage of this act."

The following is added to the paragraph in the free list relating to agricultural implements:

"Provided, That all articles mentioned in this paragraph, if imported from a country which lays an import duty on like articles imported from the United States, shall be subject to the duties existing prior to the passage of this act."

MR. HATCH'S BILL.

Anti-Option Measure Ready for Submission to the House.

WASHINGTON, May 8.—Now that Mr. Hatch has succeeded in getting a report out of his committee on the subject of anti-options it remains to be seen whether or not he can control the house as he has promised. Two thirds majority would be found recorded for his proposition when it came up, and his friends say that this was not an idle boast. At present there seems to be little or no opposition to the measure, for it is believed that even though it should run the gantlet of the lower branch of the national legislature it can not pass the senate. Mr. Hatch is not at all bashful in lauding his bill. He asserts its great object is to raise revenue, and next to protect producers from the "flat" produce of "short" sellers. As far as he is concerned he is determined that what he calls "speculative gambling" must go, and he volunteers the belief that his measure aiming at this result is entirely constitutional. When asked when he thought it likely the bill would be called up, Hatch's reply was that it would depend entirely upon Speaker Gisp. As it is a revenue measure it takes precedence over appropriation bills and is consequently at the head of the calendar.

CHICAGO, May 8.—The Hatch bill has been discussed so many times and has come up in so many forms that the board of trade has wearied of it and professes a measure of indifference. It is tacitly understood that should any measure be placed on the statute books

inimical to the interests of the grain, provisions and cotton trades it will be fought on the grounds of unconstitutionality.

BLAND NEEDS ALLEN'S AID.

It Would Have Secured a Triumph for the Silver Bill.

WASHINGTON, May 8.—Representative Bland's hopes of reporting a free coinage bill are considerably interfered with by the continued absence of Representative Allen of Mississippi, a member of the coinage committee. Mr. Allen is a free-silver man, and if he had been present at the committee meeting last Thursday it would have given Mr. Bland the margin of one vote necessary to report the bill. But without him the committee was a tie, with prospects of remaining so. To meet the emergency, Mr. Bland has secured a letter from Mr. Allen stating that the latter desired to vote to report the bill. But this move has been offset by Representatives Tracey and Harter, who object to all proxy voting. Thus, the free coinage bill is at a standstill until Mr. Allen returns, and even then the anti-silver men hint that another absentee will further postpone the reporting of the bill.

COXEY'S ARMY MUST SCATTER.

Washington's Police Bound to See the Vagrancy Law Enforced.

WASHINGTON, May 8.—How Coxey's army can be cowed and dispersed is a question that is occupying the minds of the district commissioners. It is settled that the idle men now in camp here must be scattered or there will be trouble later. The scheme considered the most feasible is to have the camp condemned at once by the health officers. This will drive the men out of the dump lot. Orders will be given to the police to strictly enforce the vagrancy laws, and any one found begging will be arrested and sent to the workhouse.

The defense had its inning yesterday in the police court trial, where the three leaders of the commonwealth—Coxey, Browne and Jones—are on trial for their May day demonstration at the Capitol. It was shown that the actions of the police themselves had compelled the people to crowd upon the grass and that there was no show of disorderly conduct whatever until the police caused it.

Judge Miller would not permit the introduction as evidence of the speech Mr. Coxey intended to make or the protest he issued, saying they had nothing to do with the trial. Mr. Coxey told the story of the march to Washington without any embellishments.

Representative Bland of Missouri said the police had driven women and children and men over the grass in their charge.

The defense closed its case and Mr. Lipscomb asked Judge Miller to charge the jury for acquittal. Judge Miller said that he would charge that the jury must find that the defendants fully and knowingly trod upon the grass.

Assistant District Attorney Mullenow made the opening speech. Representative Hudson of Kansas opened for the defense, and was followed by Mr. Lipscomb, also for the defense, and then the court adjourned.

At the open session of the senate yesterday Senator Allen of Nebraska offered a resolution for the appointment of a special committee of five senators to investigate the alleged clubbing by the Washington police of the leaders of the commonwealth. The resolution went over until to-day.

GEN. FRY MOVES EASTWARD.

At the Head of His Army He at Last Leaves the Hoosier Capital.

INDIANAPOLIS, Ind., May 8.—Gen. Fry broke camp yesterday and started with 200 men over the old National road for Washington.

ANDERSON, Ind., May 8.—Gen. Aubry and his thirty-four Coxeyites, composing the Indiana industrial army, left here yesterday for Muncie.

GREENVILLE, Ill., May 8.—Gen. Morrison's industrial army, numbering about 176 men, marched into town yesterday afternoon. The city authorities refused to furnish them with any provisions. At 6 o'clock the army moved on to Smithsboro.

SALEM, Ill., May 8.—A contingent of commonwealthers which recently left St. Louis, took possession of a freight train at Sandoval, nine miles west of here. They were induced to abandon the train here and permit it to proceed without them.

PORTLAND, Ore., May 8.—The Portland contingent of the industrial army, unable to proceed to Washington in a body, has adopted the expedient of traveling in small bands. Two divisions of fifty each have already boarded Union Pacific freight trains and are traveling eastward.

MCKEESPORT, Pa., May 8.—Galvin's army is here. No food has been contributed and no money, except the collection at a mass meeting. Galvin announces that the march will be resumed to-day.

ARMY IN TWO PIECES.

Split in Gen. Randall's Industrial Army Ranks.

WESTVILLE, Ind., May 8.—Camp Loyalty of Gen. Randall's commonwealth army is established in the east end of Ezra Geist's sugar bush, four miles of here. Camp Discord is the name of the west end of the sugar bush. Twenty-five deputy sheriffs, each armed with a big revolver, patrol the ground between the two camps. The army has split, and there is bad feeling between the two factions.

CHICAGO, May 8.—The Hatch bill has been discussed so many times and has come up in so many forms that the board of trade has wearied of it and professes a measure of indifference. It is tacitly understood that should any measure be placed on the statute books

FIRE ON A STEAMER
CAUSES MUCH LOSS.

"DIAM" FOUND TO BE ABLAZE AT SEA.

Ice Berge Encountered in the North Atlantic at a Season of the Year So Late as to Cause Navigators Much Alarm—Brief Summary of Foreign News.

ROTTERDAM, May 8.—Fire was discovered on board the steamer Diam this morning. Only by the hardest work was it gotten under control. The cargo was badly damaged. North Atlantic navigators are astir over the fact that the British steamer Atlantic, Capt. Young, from Hamburg by way of Sunderland, passed icebergs for twelve hours April 27. At noon on that day the vessel was in latitude 46, longitude 45. May 1, in latitude 41.20, longitude 64.40, the New York pilot boat America was spoken.

Capt. Charles Pinkham of the Neptune liner Urbino, at Rotterdam from Baltimore, reports to the Baltimore hydrographic office a phenomenon at sea. Between latitude 41 and 43 and longitude 45 and 39 the Urbino passed through numerous patches of dirty, muddy water, as if the ship were stirring up the bottom. Some of the patches extended twenty miles, and several were from one to five miles long.

BRECKINRIDGE TALKS.

Large Crowds Gather to Hear the Kentucky Orator.

LEXINGTON, Ky., May 8.—One of the largest crowds ever seen in Paris, Ky., assembled there yesterday to hear Breckinridge speak in the court house. The room was filled with people from all parts of the district and a large number of Bourbon county citizens. It was a much more representative crowd than that which attended the speaking here last Saturday and Breckinridge was better received if anything. After he had finished he introduced Evan Settle, one of his competitors, who spoke for an hour and ten minutes.

FRANKFORT, Ky., May 8.—W. C. Owens, candidate for congress in the Seventh district in opposition to Breckinridge, opened his campaign here yesterday. He spoke in the opera house and there were 2,000 well-known people present, about one hundred ladies being in the audience. Mr. Owens spoke about three-quarters of an hour. His speech was void of sensation, but was eloquent.

ELECTIONS IN INDIANA.

Early Reports From Towns Repeat the Results Scored in the Cities.

INDIANAPOLIS, Ind., May 8.—All Indian towns and villages not incorporated held their elections yesterday and the story from the results in at midnight seem to be a repetition of the republican victories a week ago in the cities. Jamestown republicans elect their ticket the first time in thirty years. Mitchell, Spencer, Fortville, Kentland and Frankton all elect republican tickets. Rochester went republican, as did Newcastle and Morristown. Other republican victories were at Newport, Centerville, Cicero, Liberty, Middletown, Darlington and Brookville. At Danville and Orleans democrats had no tickets in the field. North Manchester, in Wabash county, gave 370 republican majority. Knox is the only town yet reporting the election of a democratic ticket.

Ready for a Long Fight.

JACKSONVILLE, Ill., May 8.—A fierce struggle is anticipated during the next few days in this city, it being the occasion of the democratic congressional convention of the Sixteenth district, district is composed of the counties of Calhoun, Cass, Greene, Jersey, which convenes here to-day. The Macoupin, Morgan, Pike and Scott and is thought to be solidly democratic. Every county has a favorite son and each delegation will come to the convention instructed. At present no one can imagine the result, though it is not thought the contest will be as stubborn as the recent judicial contest held here.

Mrs. Lease for Congress.

TOPEKA, Kan., May 8.—There is talk here of putting Mrs. Lease in nomination for congressman-at-large, but the populist leaders do not want to turn down Congressman Harris. They are willing, however to give her the nomination in the Seventh district should Jerry Simpson not make the race.

BUDGET IS IN PERIL
FROM PARNELITES.

THREATS TO OVERTURN THE NEW ADMINISTRATION.

Part of the Friends of Home Rule Declare That They Will Do All in Their Power to Prevent the Appropriation Measure From Becoming a Law.

LONDON, May 8.—Home rule is to be forced to the front by the decision which Parnellites reached today. Until their measure is given a fair hearing they will refuse to let the budget bill go to a second reading. There is already a great deficiency and the passage of the general appropriation measure is urgently demanded. This puts Lord Roseberry and his administration at a great disadvantage. The Parnellites recognize this and believe they may unseat the present cabinet by joining the conservatives in opposing the government programme.

LONDON, May 8.—Col. Malleon, who is recognized as an eminent authority on Indian affairs, has written an open letter to the newspapers on the subject of the anticipated uprising of the natives in India, which is treated in a very serious way by the Spectator on Saturday.

Col. Malleon says that the Spectator's estimate of the gravity of the situation is not one whit exaggerated. Undoubtedly, he says, some serious disturbance is impending, and prompt action on the part of the government, he believes, is imperative. There may not be any uprising on Thursday, the anniversary of the Sepoy mutiny in 1857, as has been predicted, but it is bound to come if immediate measures are not taken to prevent it.

CROKER TO RESIGN.

Tammany's Leader Cannot Stand the Hard Work.

NEW YORK, May 8.—When the Tammany executive committee of sixty meets next Thursday Richard Croker will take one more step toward withdrawal from active political work. Last summer he resigned from the democratic state central committee; now he is quoted as saying: "I have made up my mind that I can not stand the strain and hard work connected with the management of the Tammany organization. It has grown so burdensome that at times it is more than any one can bear. Hereafter the routine and detail must be looked after by committees, for I will not and can not do it."

WASHINGTON, May 8.—Chief Croker's purpose of resigning from the head of Tammany was authoritatively made known to the leading New York members of congress yesterday in a telegram from Mr. Croker himself.

FLEET ALMOST COMPLETED.

It Will Start From Des Moines To-Morrow for Keokuk.

DES MOINES, Iowa, May 8.—Commodore Kelly's fleet will leave Des Moines to-morrow morning. Last night 125 flatboats were completed and most of them ready for launching at the navy yard. The remaining twenty-five will be finished and tested to-day. The supply of provisions for the army has run pretty low and Commodore Kelly found it necessary to buy food for the workmen. He has issued a last appeal to the citizens of Des Moines asking that money be contributed to pay for the boats, as he wishes to have some money left to secure a tug when the fleet reaches Keokuk. Eugene V. Debs, president of the American Railway Union, has authorized the signing of his name to an appeal to organized labor for support for Kelly. Sovereign also signed the appeal, which was published, together with a number of Des Moines labor leaders.

ENGINE SHATTERED BY A MOB.

Alabama Coal Miners Use Dynamite—Machinery Blown to Pieces.

BIRMINGHAM, Ala., May 8.—The strike of Alabama miners has reached its worst point. At midnight Sunday a mob of strikers 200 strong and all well armed with rifles and pistols marched to the mines of Thomas Price at Horse Creek, Walker county, and, after firing two or three volleys to intimidate the citizens of the little town, proceeded to destroy the mine property. They put dynamite in the engine and boiler and blew them both up. Two night watchmen were overawed and fled. The strikers blew up the manways to the mine and did other damage. The mine is a complete wreck. The band marched on a few miles to the Victor mines, where they saturated the scale houses with kerosene, set them afire, and fired volley after volley as the flames leaped upward. Proceeding a little farther on they blew up several cars loaded with coal standing on a sidetrack, and turned several others loose down a hill, completely wrecking them. This done they dispersed.

Sheriff Guttery was on the scene two hours after the depredations were committed, but could find none of the strikers. Several of the mob were known, and were arrested during the day. Sheriff Guttery is still on the scene with a big posse of deputies, and is in constant communication with the governor. The situation at that point is bad. The cause of the attack on Price's mines is the failure of his men to strike, although begged and threatened to do so by the strikers. At Price's and at Palos the workers have been menaced with death, and at Palos they have petitioned the governor for protection. The situation is also bad at Little Warrior, in this county. Jefferson.

The authorities at the convict prisons of Coalburg and Pratt City are in greatest apprehension. The idle miners have been flocking to the latter place until the force of deputies looks small in comparison. In the meanwhile the sheriff has ordered 100 more rifles, the state supply having given out. The strikers are mad and desperate, the authorities determined. No bloodshed has yet occurred, but it seems inevitable and imminent.

SOUTH PITTSBURG, Tenn., May 8.—The striking miners at Whitwell having been given notice to take their tools out of the mine and to vacate the property some of them are leaving the town. It is said convicts will be put into the mines. Some of the miners threaten to blow up the dynamo and cut the ropes if this is done.

WILL GET A HOT RECEPTION.

Deputies at Staunton, Ill., Are Ready for the Strikers.

STAUNTON, Ill., May 8.—Mines Nos. 6 and 7 are still running full time, the miners who want to work from other points where the consolidated company has mines, being put on here. Sheriff O'Neil is on the ground with a large number of deputies and is determined to protect the working miners and the property of the company. The citizens assemble daily and escort the men to their work. Trouble is anticipated at any time and the strikers will meet with a warm reception should they attempt a show of force. The force of deputies has been doubled as a precautionary measure.

The appeal states the people have become so desperate that a band of twenty of them made a raid upon a general store the other day for food supplies. The raid was stopped by the temporary wants being supplied. The drouth in that county has lasted four years and there is not a wagon load of grass in the entire county. BUYING THE PLANT IS NOW DISCUSSED.

COMMON COUNCIL NEGOTIATES FOR WATER WORKS.

Issue of Bonds for the High School To Be Voted upon by the Aldermen—Ten Dollars Offered for the Pest House—Milwaukee Street Paved.

The most important council meeting held in many years was that of last night. First came an ordinance introduced by Alderman Heddles providing for the issue of bonds to the amount of \$55,000 for purchasing a site and the erection and equipment of a High School building. This was read the first and second times and referred to the committee on schools to come up on its final passage at the next meeting. Following this was Alderman Child's resolution directing the mayor to inform the water company that the city desired to purchase the plant and calling upon the company to furnish the information regarding the cost of construction, etc., as stipulated in the contract. The resolution was unanimously adopted. Alderman Winslow presented an order for the repair of East Milwaukee street from Main street to the bridge, which was adopted. The "repair" means the paving of the street from the east line of Main street to the bridge, as explained by Alderman Winslow this morning, cedar blocks being used.

There were ten aldermen present at the meeting, and no division of sentiment was manifest on any of these important measures.

Health Officer Robinson submitted his April report, showing that there had been five cases of scarlet fever during the month and one case of diphtheria. The report was accepted and filed.

Offered \$10 For the Pest House.
A communication was read from Mrs. Olive Baum, stating that she would give ten dollars for the lumber in the old pest house, and agreed to move the same from the city lot; a petition was read, signed by a number of South River street property owners, asking the council to defer the paving of that street until "the hard times" were passed. The paper was referred to the street committee, and time given for consideration. A petition from residents and owners of property on William street, asking the council to divide that street, by naming that portion south of Glen street "South William street," and that portion north of Glen street "North William street," was granted, and the street, by resolution, was so named.

JANESVILLE TO HAVE A RED HOT DAY.

Business Men Decide that the People Should be Given a Good Time and a Committee is Named to Arrange Details—Water Works Agitation Comes to Naught.

Janesville business men want the Fourth of July celebrated, and took the initiative steps last night. A general committee was appointed to select the several committees who are to arrange the details. This committee consists of three from each ward as follows:

First Ward—Dr. Henry Palmer, J. L. Ford, F. S. Baines.

Second Ward—Oscar F. Nowlan, Fred Clemons, George L. Carrington.

Third Ward—C. S. Putnam, J. H. Gateley, L. H. Becker.

Fourth Ward—E. J. Green, William M. Cunningham, C. C. McLean.

Fifth Ward—C. P. McLean, Charles E. Church, E. C. Kimberly.

The committee will meet on Friday evening at 8 o'clock at the office of George L. and Sarah H. Carrington.

The discussion of the water works grievances did not amount to much. Mayor Thoroughgood of the special committee stated that a number of grievances had been filed with the committee, but the committee was of the opinion that the association could do nothing in the way of relief. The mayor informed the association in relation to the action taken by the common council, which he thought was the only thing that could be done in the way of relief, unless individuals took their grievances into court.

George L. Carrington, V. P. Richardson and R. C. Yeomans were appointed a committee to confer with the Hayes Machinery Co., of Oshkosh, and the secretary was directed to write to the Hamilton, Ohio, company inviting them to visit this city in their tour of inspection.

A resolution was adopted inviting the citizens to join with the G. A. R. in the Memorial day exercises.

"CORN KING" is the name of a two buckle plow shoe made by M. D. Wells & Co., and a dollar is the price sold at by Brown Bros. & Lincoln. It is positively the most reliable work shoe made and the price makes it the cheapest shoe on earth.

Don't get left and pay two prices on the argument that all other stores sell inferior goods. We know about as much about shoes as the majority of two by four dealers and when the claim is made that our stock is composed of rotten stuff we stand up to explain. We have low priced cheap shoes and better grades too and we are willing to leave it with the public if our goods don't out-fit, out-wear and out-price any stuff sold in Rock county. A man in Paris wrote to Henry Irving for a loan on the ground that his resemblance to the English actor had become burdensome to him on account of the frequency with which he was mistaken for the latter. Henry mailed him a shilling and advised him to end his misfortunes by having his hair cut.

The ancient Warner house in Portsmouth, N. H., is noted as being the oldest dwelling in the city, but is chiefly interesting from the fact that Colonel Warner, who occupied the house, more than a century ago, engaged Ben Franklin, in whose electrical experiments he was interested, to erect a lightning rod on it. This was the first lightning rod put up in New Hampshire, and it is still in use after a service of 131 years.

THEY WANT CRISP BILLS.

Women Have a Fad for the Newest Treasury Notes.

"Can you give me \$200 in new money?" inquired a young man at the teller's window at one of the big banks in New York a few days ago. "Mr. wants it for his wife."

"Certainly," replied the teller, recognizing in the applicant the confidential clerk of one of the bank's heaviest depositors.

The money was handed out in clean, crisp tens and fives that had never been in circulation.

After the young man had gone the teller remarked to the writer:

"That new money fad is on the increase. Just as soon as a man begins to feel a little toney he gets a notion that no member of his family ought to handle the soiled and crumpled currency in general circulation. When the madam goes a-shopping she must have her purse filled with brand new bills. Many persons explain their mania for new money on the theory that there is contagion in the much handled bills. They seek to keep disease from the family by excluding to as full an extent as possible all money that has been in circulation. They keep a supply of new bills of various denominations constantly on hand, and the ladies of the household feel that they are thus well protected against contagion."

Most of the new money is procured directly from the banks, but there are frequent individual applications at the sub-treasury for new bills and new coin. When the sub-treasury has an abundance of small denomination bills on hand such applications are unhesitatingly complied with.

ORIGIN OF THE POLKA.

A Bohemian Girl Was the One to First Dance It.

The polka is not of Polish origin, as its name might lead one to suppose. The first dancer of the polka was a young, rosy Bohemian girl named Haniczka Szelczak, the favorite partner at every dance in her native village of Kostelee, on the Elbe.

One night at a ball, in the year 1830, she was asked to dance a pas seul. She readily complied, saying:

"I will give you something of my own invention."

She then began to sing and spun around, keeping time to the tune.

The village schoolmaster, who was present accompanied her on the fiddle and very soon Haniczka's dance became popular in Kostelee, and its fame spreading, it was in course of time adopted as the national dance.

"What do you call your dance?" she was asked one day.

"Polka," was the reply, because it is danced with a half-step."

"Polka" was turned into "Polku" and later on into "Polka," which became all the rage at Prague in 1833, at Vienna in 1839 and Paris in 1840.

Haniczka is now an old lady, well stricken in years, and carefully tended by her six children and a host of grandchildren.

A Mutilated Tip.

He was handsomely dressed, but in rather a loud way. It was very evident that he had been spending a jovial evening, although his intoxication was not especially marked. Stepping up to the box office at an elevated station he pushed a \$10 bill through the opening and asked for a ticket.

"Never change so large a bill," said the ticket seller in a tired way. The man looked dazed for a moment as he fingered the bill nervously.

"Are you a married man?" he asked the official inside the box. "Yes," answered the latter tartly.

"Five," was the answer. "Then keep the bill," said the diner-out cordially, "and give me a ticket." "I like 'em that way," soliloquized the ticket seller as he pocketed \$9.95.

A BOY TRAINER.

Who Aroused the Affection of an Enraged Elephant.

"I used to travel with a circus in my younger days," said Walter L. Miles, of Boston, as he strolled around the corridor of the hotel, "and during that time witnessed a good many exciting incidents. We had with the show an old elephant named Nero, who was noted for his bad temper. He had killed two keepers and crippled several others. One afternoon, just after the performance was over, Nero broke his fastenings and proceeded to demolish everything around him. Among our performers was a young boy named Wood. This young fellow happened to be near Nero when he broke loose. The elephant grabbed the boy with his trunk, held him high in the air for a moment, and then commenced to swing him backward and forward. All those who witnessed the act expected to see the boy killed, and were filled with astonishment when Nero set young Wood down on the ground as gently as a mother would her child and began to caress him in as friendly a manner as possible. One of the keepers who understood the nature of elephants threw the boy the driving hook, shouting: 'Lead the beast away, he will mind you.' The boy did as he was told, and, sure enough, the elephant obeyed the boy and allowed him to replace the chains from which he had broken. From that hour the boy had to be the elephant's keeper."

BROUGHT TEARS.

The Song That Negroes Sang as a Farewell to a Friend.

There was a colored man going off on the ship, and a number of his friends, men and women, had come down to the dock in New York to say good-by. They had been laughing and joking in great spirits for the half hour before, but now, as the vessel started to move away, one of the women started to sing that pathetic parting hymn most boys and girls learn in Sunday school, "God Be With You Till We Meet Again." Her voice was sweet and full of feeling, as the voices of this race often are, and as she sang the others joined her till there arose a fine chorus on the air. The man smiled at first, but as he listened his smile faded and he dropped his head. Other passengers crowded to the side, and many hats were lifted, many eyes wet and tearful while the melody rang out.

But soon the big boat was clear of the pier and in midstream; there she stood for a few moments, swinging her nose slowly around until it pointed seaward, and then, with her captain and pilot on the bridge, an officer up in the mast in his lookout perch, flags flying from every mast, she sailed finely away, a beautiful and interesting sight.

TOO CALM TO BE USEFUL.

How the Man Who Never Gets Excited Put Out a Bit of a Fire.

Some men never get excited, no matter what the provocation. One of this number is employed in a foundry in Albany.

The other day he strolled into the foundry office, and in a very casual way inquired: "What's become of that extinguisher I used to see around here?"

"Oh, it was a little out of order, and we sent it back to be repaired," said one of the clerks.

Still puffing tranquilly on his pipe, the man inquired: "You don't happen to have a pail handy, do you?"

"No; what do you want a pail for?" was the answer and question.

"I thought I could use it; the shop's afire."

There was a scramble to get out, and when the shop was reached the fire had made some progress. The steamer company near at hand was notified, and after a short fight the flames were stifled.

Chaining a House.

A Boston man who has a pretty summer residence up near the line of the Grand Trunk in Northern Maine mutely indicates that he "has been there before." Over the roof of this dwelling runs a stout iron rod, both ends coming down over the eaves. To these ends heavy chains are attached and are fastened solidly into the ledge by means of rings. The stable and the summer houses are likewise chained down, and 'tis reasonable to expect that though Eurus or Boreas and all the rest of the winds may rant and blow, that particular summer resident will find his property sticking fast to the rock when he returns with the robins.

Double Stars.

All stars appear single to the naked eye, but the use of the telescope has proven that many consist of two or more distinct orbs. When the astronomer Herschel first began to make a special observation of double stars, only four were known. He increased the number to 500, and now about 7,000 are catalogued by astronomers. Some have argued that these stars only appear to be double because they are on the same line of vision, but Herschel, after many years of investigation, was convinced that in hundreds of cases they actually revolve around each other, thus proving beyond a doubt that there is an actual relationship between such pairs of orbs.

BEES ALMOST KILL AN AGED FARMER.

JOHN WEIDENSAUL HAS A
FRIGHTFUL EXPERIENCE.

News Briefly Summed Up—All Souls
Lecture Course—Surprise For J. H.
Parker—N. L. Carle's New Home.
False Alarm of Fire—Coxey Story
Tried.

JOHN WEIDENSAUL, an old German
farmer living west of Orfordville met
with a terrible experience which
nearly cost him his life. He was hiving
a swarm of bees that had lodged
on a tree, when a second swarm took
refuge on the same place. This pre-
cipitated a war between the hostile
colonies, and Mr. Weidensaul came in
for a big share of the punishment. He
was stung by at least one hundred
bees and finally sank down exhausted
and unconscious. When found the
old man was cold, with life almost
gone, but prompt medical aid restored
him. He suffered terrible agony, and
his face was almost swollen beyond
recognition.

MAYOR W. S. HEDDLES, of Edgerton,
spent Sunday and Monday in this city
the guest of his brother, Alderman S.
B. Heddles, of the First ward. Mayor
Heddles was on his way home from a
tour around the state inspecting the
smaller water works plants, obtaining
information to present to the Edgerton
common council. Yesterday he
had an interview with Mayor Thor-
oughgood in relation to our plant, and
returned home pretty well convinced
that city ownership would be the best.

A HOUSEFUL of friends surprised J.
H. Parker at his Main street home last
night. They gathered while Mr.
Parker was at his store, and when he
reached the front door he was sud-
denly reminded that good things often
come in an unexpected fashion. Card
playing and other amusements enter-
tained the company until midnight,
abundant refreshments being served.

A CLOUD of smoke from a chimney
on the Smith block curled over the
cornice yesterday afternoon, causing
J. P. Worthington to run to the fire
station with an alarm. The fire de-
partment could not discover any rea-
son for the alarm, although, they
climbed all over the block.

Dolly H. Also Suffered in Being Taken
From This City to Other Towns on
the Circuit Last Summer—Railroad
Company Won't Pay For Evans-
ville's Fire.

Owners and shippers of live stock
will be interested in the trial of the
damage suit of Edwin F. Carpenter
against the Chicago & Northwestern
Railway Company, now in progress.
Mr. Carpenter seeks to recover eight
thousand dollars, to compensate him
for damage inflicted to his horses
"Dan Phallamont" and "Dolly H,"
while en route to Madison, Chicago
and La Crosse. He claims that through
the carelessness or negligence of the
company's employees his horses were
lamed to such an extent as to impair
their speed permanently.

The injuries are alleged to have
been inflicted in the company's yards
in this city and on the track at Sparta.
The case will occupy the court and
jury until tomorrow.

The jury in the case of the Rockford
Fire Insurance company against the
Chicago & Northwestern railway com-
pany returned a verdict this morning
for the defendant, thus reversing the
judgment of the lower court, which
was that the railroad was responsible
for the burning of the warehouse in
question.

R. J. Maltress Picked Up Several Janes-
ville Packings For New York Men

More Janesville leaf has been
bought by R. J. Maltress in the last
few days than has changed hands in

of three hundred cases, extra choice
stock, went at a liberal figure. Twenty-
nine cases were bought from F. S.
Baines and 119 from Heddles & Carter.

The Jones leaf sold on private terms,
the other goods bringing five to ten
cents. Mr. Maltress buys for Kerbs
Wertheim & Schiffer, the New York

THE DAY IN THE CITY.

THAT tired feeling so common these
early spring days can be overcome by
buying a pair of Brown Bros. & Lin-
coln's celebrated "7 Button Wonder"
shoes. You are tired because you
pay too much. We have the remedy
—style, comfort, durability, and last,
but not least, a surprise for your
purse, our price \$3.48. Think of it.
A fine custom-made vici kid stock,
seven large buttons, square patent tip,
creased vamps, made like a hand-
sewed shoe, and our price much less
than such goods are usually sold for.
No wonder we call it a wonder and
this wonder is a wonder sure.

NO MORE NEWS FROM DOE.

Janesville's Warrior Will Let the News-
papers Guess Hereafter.

General Doe is reported in Washing-
ton dispatches to be much flustered.
One of the newspapers published the
story that Col. Crofton's command at
Fort Sheridan was booked for an early
transfer.

"Why," said Doe, his feathers
ruffling quite fiercely; "why this is
most annoying. Why" he continued
punctuating his speech with gasps,
"why I don't see why the papers print
such stories."

"Possibly because they are after the
news," was suggested.

"But that isn't news," he replied
with a fresh ruffle. "I know nothing
about any such transfer."

It was then suggested that two
weeks ago, when The Post published
Secretary Lamont's intention of court-
martialing Lieutenant Maney, he knew
nothing of that.

"Oh, well," he exclaimed, "I don't
see where you got that information.
Now, when I came here I intended to
give the newspaper men all the in-
formation in my power; but the papers
print so many guesses I have con-
cluded they might as well print all
guesses and then the people will
know that they print no truth at all,
and I don't think that I shall give
them any more information."

When the papers hear this they'll
doubtless suspend publication, but
Mr. Doe can't help that. People
around the war department say they
haven't seen Mr. Doe so excited since
he heard that a body of Coxeyites
were thinking of marching through
Wisconsin, a plan which he declared
the noble militia of that state would
never permit.

JOHN FANNING'S FAMILY SUM-
MARILY OUSTED.

Before They Realize It, Their Home
Is Afire—Very Little of the Con-

Supposed To Be the Cause—Loss
Not Wholly Covered.

John Fanning's house with nearly
all the household furniture, situated
near Johnstown, was destroyed by
fire yesterday afternoon. The fire is
supposed to have originated from a
defective chimney, and had got such a
start before it was discovered that
very little of the contents could be
removed, although the family were
all at home. Mr. Fanning had an in-
surance of \$400 on the contents, but
his loss will greatly exceed those
amounts. The insurance was with
Silas Hayner's agency of this city.

TITCOMB SAYS SHAW SO DO MANY OTHERS

FAMOUS PIANISTS PRAISE THE
GAZETTE PRIZE.

Everybody Who Has Examined the Instrument at S. C. Burnham & Co's Says the Things Said in Its Favor Were Justified—Conditions of the Contest.

Everybody in Janesville knows Professor Charles Titcomb. His judgment on pianos would be taken by anybody. What he thinks of the Shaw, the piano offered by the Gazette, is shown by his choice of that instrument over all other uprights in the market. He uses it in recitals and his preference is admitted by St. Paul musicians to be well founded. Here is one of the letters to the St. Paul agents of the Shaw company:

ST. PAUL, MINN., NOV. 8, 1893. S. W. RAUDENBUSH & CO. DEAR SIRS:—Owing to the fact that Miss Titcomb has been compelled to postpone the recital till the 31st. I thank you many times for your kindness. Professor Titcomb was completely captivated with the Shaw piano the other evening. Yours truly, W. Allison, Financial Secretary, Y. M. C. A.

That Mr. Titcomb is not alone in his praise of the Shaw is proven by a forty-page pamphlet issued by Raudenbush & Co. and containing the most complimentary letters as to the Shaw's quality. There is no reason to doubt that this instrument ranks in the markets of the country just as Chickering's, Steinways and Knabes, the four occupying first place. Everybody who has seen the Gazette piano is enthusiastic in its praise. It has a pure ringing tone, and its action is very fine. These qualities are what would be expected of a Shaw piano and The Gazette made no mistake in choosing that instrument.

Friends of contestants show a lively interest in the success of their favorites and votes are coming in rapidly. New subscribers should be reported as fast as secured, but coupons should be tied in bundles of one hundred each and kept until the day the competition closes. Votes have been cast up to date, for the following candidates:

Baker, Bessie
Clifford, Alice M.
Eldredge, Rose B.
Frank May
Foster, Lahlie
Gifford, Alice V.
Gibbs, Maria J.
Holt, Ellen
Huggett, Miss Olive.
Hayward, Minnie
Kenyon, Cora
Kastner, Alice
Loucks, Franc
McNeil, Anna
Peterson, Nellie
Pease, Bashie K.
Randall, Carrie M.
Wright, Ada V.

Names of other candidates will be added as fast as votes are received. Only bona fide candidates will be allowed. The rule that nobody is permitted to enter merely to represent an organized society will be strictly enforced.

From now until the contest closes a coupon will be printed in each issue of the Gazette.

1. Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

2. Cut the ballot out (trimming on the dotted lines) Write in the name of your candidate and enclose same in an envelope addressed to Bailot Editor, Gazette, Janesville, Wis.

3. Only one person can be voted for on one ballot.

4. The lady who receives the largest number of votes will receive as good and beautiful a piano as the Shaw Piano Company can make.

5. The contest will close June 30, 1894. Piano will be delivered as soon as the counting of votes is completed.

6. Any person who will bring The Gazette one new subscriber paid in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.
New subscriber paid in advance two months, 250 votes.
New subscriber paid in advance six months, 900 votes.
New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

We will be square with you, you must be square with us. No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

The polls will close at 9:00 p. m., June 30, but votes handed in before this will be duly credited. The contest will be conducted strictly "on the square." No partiality or unfair advantage will be taken or allowed in any case.

Teacher—In which of his battles was Gen. Custer killed?

Did You Ever Meet a Truly Good Man?

No doubt you think you have, but we'll wager a dime or so he did not have the rheumatism. If he did, he swore occasionally, and no man can be truly good who swears occasionally. Health, nerve tranquility and morality are apt to go hand in hand. Painful spasmodic diseases like rheumatism and neuralgia ruin the temper, make one morose, peevish and rebellious. This is a sad fact, but it is none the less true. Drive away the pain, mollify the temper, restore tranquility of mind in cases of rheumatism and neuralgia with Hostetter's Stomach Bitter, an anodyne and tonic of comprehensive range and effect. It healthfully stimulates the kidneys, bladder, stomach, liver and bowels when inactive, and induces sleep and appetite. A very quieting effect, not an unnatural, stupefying one like that of an opiate, is produced by a wine-glassful before retiring. It is incomparable in malarial disease.

FAR FROM THE MADDING CROWD.

Americans Should Get There Oftener—Garden Party Gowns For Such Outings.

In spite of the fog, frequent rain and remarkable uncertainty of climate, out of door amusements are exceedingly popular in England. The English spend a large proportion of their sunny summer days in boating, picnicking, making excursions to points of interest and attending or giving lawn parties. It seems rather odd that Americans, who have in general a far brighter and more dependable climate to count upon, do not take more kindly to open air diversions. They play tennis, to be sure, but that is almost the only out of door recreation in which they indulge as a class.

The French and Germans, whose climate is more like our own, are also open air people and delight to be out of doors even though inanimate nature be represented only by a stunted grapevine or the trellised vestibule of a restaurant. It is curious that the inhabitants of this young

GARDEN PARTY GOWN.

country, which is yet in its childhood, should have lost the primeval desire for sylvan surroundings which is still felt in all its force by nations hoary with antiquity. The shoppers of Paris spend their weekly holiday in the suburbs, where they can see green fields and drink their thin wine under a leafy lattice, but American men and women of the same class rush to the most crowded thoroughfares of the city on Sunday to find their recreation and enjoyment. When they enter the public parks, they throng the edges of the drives and swell the crowd in the main paths, ignoring the small green alleys and leafy nooks within their reach. It is not a desire for out of doors that inspires them, but a craving to be a part of the jostling mass of humanity for which there is not room under cover.

It is the same with the wealthier classes. The most crowded mountain and seaside caravansaries are the most attractive to the summer visitor. Except for the daily sea bath or sentimental sunset stroll, the guests spend their days in dawdling about the verandas or billiard rooms and their nights in dancing in overheated halls.

They do these things better in France. They associate with pastoral nature there, although they make her wear rouge and high heels. Even the modistes design their prettiest gowns to be worn against the background she spreads for them. A sketch is given of a gown suitable for a lawn party. It is of lettuce green and white china silk draped with white liberty satin. The garniture is of guipure, with violet velvet rosettes.

REDINGOTES COMING TO LIFE.

A Pretty One of Pongee That Is Intended For Summer Traveling.

Whenever princess gowns are in vogue the redingote is sure to show indications of coming to life. It insinuated itself inconspicuously among last winter's fashions and is seen again this summer in several forms. It is a never settled question whether stout women look best in plain or draped gowns. The theory of many persons is that close, plain styles diminish the apparent size, while their opponents declare that drapery shrouds and conceals the real bulk of the form, persuading the eye of the observer that the major portion of the figure is composed of surplus cloth. It is a poor rule which will not work both ways. We all know that a very slender woman appears to greatest advantage in frills and furbelows, and therefore it would seem that plain garments would best be-

PONGEE REDINGOTE.

come too plump women. At least it is a recognized fact that breadth of form appears badly in conjunction with horizontal lines; therefore the round waist is to be avoided by stout women, who look their best in costumes the lines of which are long and sweeping. The long coat styles and the redingote should commend themselves to women of average height who weigh over 150 pounds. If the shoulders are square and broad, tight low sleeves should be adopted, but if the shoulders and hips are small in proportion to the waist, as is often the case, wide sleeves and trimming about the shoulders and bust will make the waist appear smaller.

Redingotes are seen mainly among outside garments as yet, and then not overplentifully. A sketch is given of one intended for summer traveling which is very pretty. It is made of pongee and is double breasted, the front being ornamented with large buttons. It comes within three inches of the bottom of the gown. The wide, full collar and revers give it character. The gigot sleeves are of satin.

Catarrh
AND
COLD IN THE HEAD
relieved instantly by one application of
Birney's Catarrh Powder

REV. FATHER CLARKE, Sec'y to the Rt. Rev. Bishop of Columbus, Ohio, writes:
GENTLEMEN:—I cannot say enough for your Powder. It has cured me of an aggravated attack of catarrh when nothing else could help me. Am delighted with it. All my friends to whom I administered samples are quite enthusiastic over it. The good sisters speak most encouragingly of their use of it in the Hospital under their care. I will do anything to speak a good word for the remedy to help others who are suffering.
M. E. FERGUSON, Custodian U. S. Appraiser's Stores, Chicago, writes:
GENTLEMEN:—Being almost entirely deaf for a number of years past and getting no relief from many so-called cures which I tried, was induced by a friend to try Dr. Birney's Catarrhal Powder for my deafness. Have recovered my hearing entirely, so that I can now hear a watch tick nearly, it being held in inches from my ear. I look upon it as a positive cure for deafness and have recommended its use to many of my friends and can say I have never heard of a case where it has failed to relieve.
